Place of study

Declaration

I declare that:

- I am contributing to the maintenance of the above-named dependant.
- He/she is a full time student.
- He/she is without a spouse or defacto.
- I will immediately inform Health Partners of any change in the above-named dependant's circumstances.
- I am the policyholder or authorised to sign this registration as the legal representative or as a holder of a Delegation of Authority on the policy.

Signature Date / /

Important information

- This form is to be completed by the policyholder, their legal representative or a person with a Delegation of Authority.
- Once a dependant turns 21 he/she is no longer covered under the family membership unless he/she is registered as a student dependant.
- A student dependant must be 21 years and under 25 years of age and undertaking a full-time study workload for a course at a school, college, TAFE or university.
- To ensure continuity of cover a registration form must be completed for each student dependant included on the family membership before the commencement of each student year. **Failure to register, may result in the removal of this dependant from your cover and waits may apply.**
- The 2018 student year commences 1 March 2018 and ends 28 February 2019. Dependants must be registered as soon as they turn 21 and again in the new student year to ensure continuity of cover. For example, if Mary Smith turned 21 on 21 December 2017, she will need to be registered for the student year ending 28 February 2018. She will need to be re-registered before 1 March 2018 if she is to continue studying in 2018.
- **Proof of full-time study status must be provided if requested by Health Partners.** This may include a copy of student ID card, enrolment summary or letter from the institution indicating full-time study for the year.
